Mother's Worksheet for Child's Birth

The information you provide below will be used to create your child's birth certificate as well as other public health purposes. The birth certificate is a document that will be used for important purposes including proving your child's age, citizenship and parentage. The birth certificate will be used by your child throughout his/her life.

It is very important that you provide complete and accurate information to all of the questions. In addition, this information is used by health and medical researchers to study and improve the health of mothers and newborn infants. Items such as education, race, and smoking will be used for studies but will not appear on copies of your child's birth certificate (unless requested by a person listed on the certificate). State of Ohio law provides protection against the unauthorized release of health and medical information, but mandates the release of identifying information from the birth certificate under public record law.

Please print clearly.
