BIRTH PARENT WORKSHEET

FOR THE CERTIFICATE OF LIVE BIRTH

You must provide complete and accurate information to all questions on this worksheet. The information you provide will be used to create your child's birth certificate. The birth certificate is a permanent legal record that will be used by your child throughout their life for important purposes such as proof of age, citizenship, and parentage.

In addition, health researchers use this information to study and improve the health of mothers and infants. Items such as education, race, and smoking will be used for studies but will not appear on copies of your child's birth certificate (unless requested by a person listed on the certificate). State of Ohio law provides protection against the unauthorized release of health and medical information but mandates the release of identifying information from the birth certificate under public record law.

Please print clearly in black or dark blue ink. If needed, please ask hospital staff for help.
